

The Program

K6 Sports offers the most unique concept ever in youth sports. More children than ever play youth sports; however, simultaneously, there are still children who are deprived of the appropriate youth sports opportunities or instruction.

Unlike most recreation programs, usually operated by volunteer coaches and parents, K6 Sports teams are coached by certified youth program professionals who teach and coach the game in carefully planned progressions. The fundamentals and progressions taught by our coaches lead into offensive and defensive concepts. **Skill, Drill and Compete** comprise the formula for success in K6 basketball.

Each child can learn many of the techniques needed to be successful in a sport without having to be on an elite travel team. In addition, our program is adjusted to the age and ability of the players to ensure that the highly skilled athlete will get challenged and the novice will have opportunity for success.

Although all children, who participate in K6 Sports programs, will receive unprecedented instructions in conditioning and skills, the biggest benefit of the program is the enhancement of the social, moral and emotional development of each child.
