

## ***The K6 Program***

K6 Sports offers an entirely unique concept in youth sports. More children than ever play youth sports; however, there are still children who are deprived of the appropriate youth sports opportunities and instruction.

Unlike most recreational youth sports programs, usually operated by volunteer coaches and parents, K6 Sports teams are coached by certified youth professionals who teach and coach the game in carefully planned progressions. The fundamentals and progressions taught by our coaches lead into offensive and defensive concepts.

**Skill, Drill and Compete** comprise the formula for success in K6 Sports. Each child will learn many of the techniques needed to be successful in a sport, without having to be on an elite travel team. In addition, our program is adjusted to the age and ability of the players to ensure that the highly skilled athlete will be challenged and the novice will have opportunity for success.

In addition to receiving unprecedented instructions in conditioning and skills, all K6 participants will experience an enhancement in their social, moral and emotional development.

## ***The Football Program***

The most unique concept in youth flag football arrived in Naples, FL. K6 Sports, a football instructional academy, is supplemented by relevant quality game-like experiences and first class instruction.

Each child will learn many of the techniques needed to be successful in tackle football without putting on the pads. The program is adjusted to the age and ability of the players to ensure a challenge for the highly skilled athlete and opportunity for success for all players. Most importantly, our coaches are great role models who emphasize sportsmanship and will teach athletes how to be good people as well as good players.

Additionally, teams will be made by school or geographic regions providing there are sufficient participants from an area. This will allow students to be on a team with players they may play with in the future.
